

# **“CASEMATIC”**

**TABLETOP HARD COVER MAKER**

**EASY TO LEARN AND USE**

**ELECTRIC EDGE WRAPPING**

**PRECISE CHIPBOARD PLACEMENT**

**IT'S FAST, ABOUT 1.5 MINUTES PER COVER**

**'EXPANDING YOUR PROFIT IN A DIGITAL WORLD'**

Why pay up to \$11 for a pre-made hard cover when you can make your own fully decorated hard cover for about \$3.50? Hard covers convey prestige and importance. The Casematic enables you to easily make retail-quality, coffee table type books using your logos, pictures, text, and graphics. Print your cover design on our ink-jet or laser tacking sheet, optionally laminate it, then use the Casematic to precisely place the chipboard panels, cut the corners, and wrap the edges. From your imagination to realization in minutes!

Need to be creative? You can also make hard covers from many types of materials such as leather, cloth, vellum, velvet, etc. Bind the book content directly to the spine or use our tape strips to make a lay-flat book. For a few extra pennies, you can add a book mark ribbon or headbands. Make books as small as 3" x 5" or up to 12" x 12".

If your budget is limited, the base Casematic is affordable, you can wrap the edges manually. The Casematic Pro increases your productivity with an integral electric edge wrapper that's foot pedal operated.

**It's perfect for making school yearbooks, proposals, real estate listing books, thesis, proposals, scrapbooks, and milestone books!**

		<b>Metric</b>
Max tacking paper size WxH	21" x 13"	530 x 320 mm
