

Fastback Foilfast® Printer

The revolutionary Foilfast® Printer is the perfect addition to any office, letting you add stunning foil artwork and titles to your document covers. This 600 dpi printer will feed multiple pages, and is designed to work perfectly with the Comp Cover™ line of covers. It also prints in foil on Powis Parker's 7 mil clear poly covers. The Foilfast printer uses drop-in foil cartridges that come in seven popular colours: gold, silver, black, white, red, green, and blue. The foil colours match the colours available for the PowisPrinter® ensuring consistent design throughout your work.

Foil printing was once an expensive proposition, requiring special equipment and custom-made metal dies. With the Foilfast printer now everyone can produce beautiful foil-printed covers in less than two minutes per sheet. The Foilfast® printer works with most popular design programs, such as Adobe Illustrator, Quark Xpress, and Corel Draw. The intuitive interface requires no special colour palettes. It is PC and Macintosh compatible.

Features:

- Prints in seven colours of foil
- 600 dpi
- Prints on Composition Covers.
- Prints on Clear Covers.
- Works with popular design programs
- No special color palettes required
- Compatible with PC and Macintosh computer systems
