

Fastback Powis Printer

The versatile PowisPrinter® lets you add titles and logos to the spines of your documents in seven dazzling colours of foil. With the separate keyboard, you can design titles with three orientations (horizontal, vertical, and stacked), and type sizes from 8 points to 84 points. The PowisPrinter comes with 11 built-in fonts for design flexibility. Spines are divided into three zones (top, middle, and bottom), and you can use different type styles, sizes, and orientations in all three zones on the same strip. If you connect your PowisPrinter to a computer, you can add additional fonts, and preview the results before printing it. You can even add your logos and artwork to the spine.

The foil cartridges are easy to use, and the colours match those on the Foilfast® printer. The PowisPrinter is designed to work alone or in combination with the Fastback® Model 15xs, and the Model 11 printers. Infrared sensors and a specially designed exit chute that automatically feeds printed strips into the binders help speed up the production process.

When a book is placed on a shelf with several others, its spine becomes its most important asset. Make the spines of your books say what you want with the amazing PowisPrinter.

Powis Printer Features:

- Seven available foil colors
- Separate keyboard
- Eleven built-in fonts
- Fonts sizes from 8 points to 84 points
- Three orientations
- Preview spine before printing
- Add fonts via computer connection
- Add logo to spine
- Infrared sensor communicates with Fastback® Model 15xs and Model 11

Specifications:

Dimensions: 12" height x 14" width x 9.25" depth

Weight: 22.25 lbs.

Keyboard Weight: 2 lbs.

Keyboard Type: QWERTY-style Typewriter Keyboard

Average Printing Time: 20 seconds

PC Minimum Specifications:

486 or Pentium® Class Computer

Windows® 95/98 required

16MB RAM required, 32MB RAM recommended

17" VGA Monitor recommended

RS-232 Serial Port, CD-ROM or 3.5" floppy drive

Microsoft or 100% compatible mouse recommended

20MB Hard Disk Space

Mac Specifications:

Connecting Mac computers to the PowisPrinter® (thru Virtual PC)

Power Requirements:

USA: 7 amps, 120V, 50/60 Hz.
