

IBLSPAL – Paper Seperator

Attachable to any OD Series or HD Series punch, the Piks-A-Lift will forever change the way your customers look competitors automatic punching systems. When used in combination with our IBLSAPES-14 module, "hands on" punching control virtually eliminates mis-punched sheets, thereby allowing the numbered page jobs usually excluded from automatic punching. In our initial tests, the Piks-A-Lift / IBLSAPES-14 combo has outperformed many of the fully automatic punches and has done so at less than one-half of their initial cost. The system offers flexibility enough to handle index tabs, clear covers, over-sized covers and paper sizes from 8.5" X 5.5" (140mm X 140mm) up to 8.5" X 14" (356mm x 356mm), both in landscape and portrait. Easy to set up and operate, your customers will appreciate the unbelievable productivity gains attainable with this new module.

Features:

- Uses paper sizes from 8½" x 5½" (140mm x 140mm) up to 8.5" X 14" (356mm X 356mm) legal size including tabs and up to 3 reams at a time
- Able to Combine with an Existing IBLSAPES-14 Attachment.
- Fits on any Vertical OD or HD Series Machine.
- Provides Average Paper Count Accuracy of + or - 1 Sheet for Each Lift.
- Variable Paper Lift Thickness.
