

IBLSPhotoPress System

The IBLSPhotoPress is a fast and easy to use photo book system that turns silver-halide, dye-sub and inkjet prints into a beautiful, distinctive photo books. The finished books rival the quality of traditional mounted albums, but the process takes a fraction of the time and cost. The IBLSPhotoPress uses pressure instead of heat to laminate photographic prints to our patent-pending Signature sheets. It is easy to use; anyone can make a beautiful photo books in minutes. The photos are arranged with the Signature sheets then a quick cycle in the IBLSPhotoPress and the permanent adhesive is activated. The mounted photographs are then ready for assembly into an IBLSPhotoBook Hardcover – considered the finest book cover in the industry. The result is a beautiful photo book, made from prints, ready in a matter of minutes.
