FASTBIND R2 PRACTIC

GLUE APPLICATION FROM ABOVE

ROUGHENING UNIT

FORMAT FROM A7 UP TO A3+

THICKNESS 0.1-50 mm

FASTBIND R2 PRACTIC

COMPACT PERFECT BINDING MACHINE

The compact FASTBIND R2 PRACTIC offers the advantages of the Fastbind method of perfect book binding, combined in one economical and compact, easy to use unit. Flexibility and control gained through the manual glue application, makes this machine ideal for the copy shop or print room with low to medium volume requirements or working with coated papers.

NO SETUP TIME

FASTBIND R2 PRACTIC is user friendly perfect binding machine – it is quickly ready for use, there is no need to adjust the machine when changing the format or the thickness of the books produced. Despite it's compact size and low running costs, the characteristics of Fastbind allows freedom of cover materials and types.

ROUGHENER - PGO

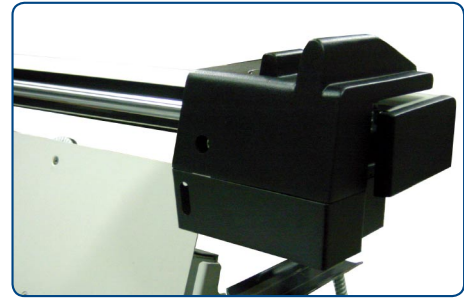

The FASTBIND PGO (Paper Grain Opening system) roughener, with twin rippers, bursts the paper surface and opens the grain, allowing the glue to penetrate deep into paper. This in conjunction with the patented fanning system ensures a secure document with almost any paper material.

COVER TRIMMING

The optional cover trimmer enables the bound book cover to be flush trimmed for the perfect finish, without the requirement for a guillotine.

SPECIFICATIONS

Capacity cycles/hour*	Up to 180 pcs/hour
Roughening	Yes
Min/max binding thickness (mm)	0,2 – 50 mm
Max width of the book (mm)	Up to 435 x 305 mm
Max thickness of cover material (g/m2)**	Up to 400
Power (W)	220/240 W
Frequency (Hz)	50-60 Hz
Machine dimensions WxDxH (cm)	73 x 45 x 54
Weight (net)	35 kg

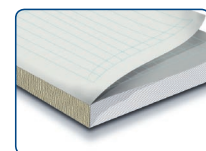

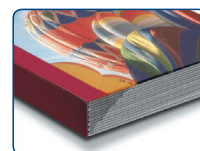

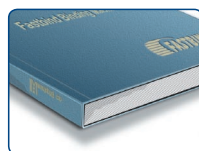

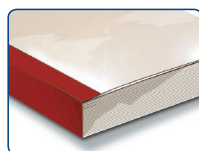

Safe construction

Twin PGO-roughener rollers

Built in cover trimmer.

VERSATILE APPLICATIONS: SOFT COVER • HARD COVER • PADS
